Green, a British Columbia land surveyor, being a person competent for such purpose, of the said locality proposed to be cleared of obstructions, and has also procured an estimate of the work to be made by the said J. B. Green, and an assessment of the lands to be benefited by the removal of such obstructions, stating as nearly as he can the proportion of benefit which, in his opinion, will be derived by the removal of such obstructions by every lot, or portion of a lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots, or parts of lots hereinafter in that behalf specifically set forth and described, and the report of the said J. B. Green in respect thereof and of the removal of the said obstructions being as follows:—

"Last fall I was requested to find the difference in the water-levels between Somenos Lake and Cowichan River, when both bodies of water were about at their summer or lowest levels, and found the water-level of lake to be 1.2 feet above the water of river at the mouth of Somenos Creek.

Owing to this slight difference between the levels of the lake and the river, the outlet is naturally very sluggish and does not clear itself to an appreciable extent, hence the annual growth in the bottom and sides of the creek, together with the driftwood and rubbish brought down stream in winter, tends to impede the flow of water.

There is about one and a half to two miles of creek outlet to Somenos Lake, over which I have to-day made an examination from the lake to the river and find it overgrown in many places, more particularly just from the outlet in the lake to a bridge across the creek on Mr. Kingston's land and again on Mr. Alexander's land, there is a good deal of overhanging brush, but the channel seems fairly clear except for a few gravel-bars across the creek near the Lakes Road. Through Mr. Jaynes' land the creek is both deep and wide and is affected by the level of the water in the river. On the Indian Reserve I notice there is one beaver-dam across the creek which is holding up water, at present about one or two inches, and I also think there is another beaver-dam holding back the water.

From my inspection of the creek I should judge that it is both feasible and necessary that the creek should be cleared of driftwood and rubbish, the overhanging brush cut away from the sides, the growth in the bottom of the creek cut out and gravel-bars and silt in shallow places removed. From the present condition of the creek I should judge it would take from \$300 to \$500 to clean it out, more especially the upper part as far down as the Lakes Road.

The brush and growth in the bottom of the creek should be cut out annually, and I should think \$100, or thereabouts, expended annually for this purpose would go a long way towards keeping the creek open.

According to a plan on file in your office, compiled some years ago by Mr. Priest, C.E., it shows some 527 acres of land round Somenos Lake affected by the drainage area of this creek.

Sgd. J. B. GREEN,
Municipal Surveyor."

And whereas the said Council is of the opinion that the removal of the obstructions in the outlet to Somenos Lake is desirable:

Be it therefore enacted by the said Municipal Council of the Corporation of the District of North Cowichan, pursuant to the provisions of the "Municipal Act":—

1. That the said report, plans, and estimates be adopted, and the said obstructions be removed, and the works connected therewith be made and constructed in accordance therewith.

2. That for the purpose of paying the sum of six hundred and thirty-five dollars (\$635) in the year 1919, and the sum of one hundred and twenty dollars (\$120) per annum for each and every year following during the life of this by-law, being the amount charged against the said lands so to be benefited as aforesaid, other than lands belonging to the municipality, the following special rates over and above all other rates, shall be assessed and levied and collected upon the undermentioned lots or parts of lots.

3. The said special rate shall be due and payable at the office of the Collector of the Corporation, on or before the 30th day of September, in the year 1919, and in each and every year during the life of this by-law. And in default of payment on the 30th day of September of each and every year shall be subject to interest at the rate of eight per centum (8%) per annum until paid.
